

Our cabin's vision

They soften the horizon of even the most concrete coastline and add to the charm of the seaside. This is undoubtedly because they have survived the centuries since the birth of seaside resorts in the 19th century.

+33 (0)4 65 00 00 00

Located in l'Isle sur la Sorgue (Vaucluse), Les Petites Maisons de l'Isle founded in 2016 is specialized in the French manufacture of wooden beach huts for professionals, communities as well as individuals.

In our 400m² workshop we employ 6 skilled and passionate workers who carry out the entire production of high-end beach cabins on site.

Our team

Vincent BLOT
Director

Salomé ROMA

Olivier BLAY
Head of production

OUR CONCEPT

*The cachet of a wooden cabin to
embellish your outdoors*

02

OUR CONCEPT

Modulable

Both stylish and original, we create cabins that can be duplicated, modulated and customized to suit your projects. A real decorative object that enhances your business and your outdoor spaces.

SUMMER KITCHEN - BEACH RESTAURANT - KIOSK BAR - SALES AREA

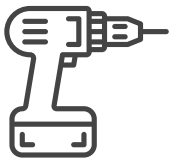

Customizable

A list of options allows each cabin to be a unique creation: choice of zinc roof finish, interior fittings, brass accessories, shelf, bench, coat hook, choice of floor, choice of plain or two-tone exterior colors...

CHANGING ROOMS - SHOWERS/WC - BEACH CABIN - TECHNICAL ROOM - TICKET OFFICE

Removable

Our products can be completely dismantled using an optional system of brass frogs, so that our cabins can be assembled and dismantled quickly and easily, for even greater protection during the winter season. All our installations can be carried out without the need of a building permit or declaration of works.

OUR STRENGTHS

03

OUR STRENGTHS

Quality

Guaranteed French origin

Aimed at a demanding clientele, and aware of the great differences in quality between the products available on the market, we use **100% French materials**, and prefer a **short supply circuit**.

Noble, hard-wearing materials such as exotic wood (Okoumé) and Douglas fir, zinc for the roof, and brass for the frame, ensure **robustness** and **meticulously finishing** of each of our creations.

Our choice of materials guarantees the **strength and durability** of our products.

Expertise

Designed upstream in 3D, then manufactured with a **real desire for craftsmanship mixed with art**, our cabins combine woodworking, the expertise of metalworkers, and mastery of paints.

Committed to **traditional French know-how and "hand-made" products**, we carry out all the steps required to manufacture your projects in our workshop.

Accompanied by our **skilled craftsmen** (painters, carpenters and metalworkers), we **monitor processes** at every stage, enabling us to guarantee a **range of high-quality products**.

OUR PROCESS

04

OUR PROCESS

#1

CONCEPTION

Understanding the project :
Choice of modules, technical constraints, usefulness, target audience.

#2

CUSTOMIZATION

Finishes, choice of colors, interior fittings, equipment, logo.

#3

PRODUCTION

Manufactured and assembled in our workshop.

#4

DELIVERY & INSTALLATION

Cabin's delivery and installation by our experienced technicians.
